Hi, Kelly -I'd say this is ready to get team edits and input. I went ahead and made suggestions as I did a quick review, mainly to add some more elements of timing, some coordination details, and capture that we already have the "launch pad" documents about as ready as they can possibly be.

Tom/Rosemary,

Before I put this document on the sharepoint for edits and input from the team, I'd like some feedback on if I'm even on the right track for what Jeananne wants and any improvements you would suggest.
